

GREEN PRO POWER WD 50 P

WET & DRY VACUUM CLEANERS

Wet/dry vacuum cleaner equipped with a powerful and high efficiency new-generation motor. Environmentally sustainable model made of recycled plastic and equipped with the innovative UFS (Ultra FilteRing System) filtering system, which, thanks to the special polypropylene spacer ring, allows the cartridge filter (class M) to remain installed at all times, ensuring optimal suction performances and maximum protection for the motor (even in case of incorrect use by the operator). UFS is also practical: cleaning and maintenance of the floating system, which is independent from the motor head and attached directly to the ring, is immediate, simple and intuitive. Large air flow rate and high suction force. Outfitted with shockproof plastic wheeled trolley with accessory housings. Optional paper, nylon, HEPA cartridge and TNT filters.

32% recycled plastic

High efficiency motor

Telescopic suction tube "S"

Ultra FilteRing System

PTFE cartridge filter (M filtration class)
